

## **Alliant Communities Preservation Job Description: AVP, Asset Management Data and Analytics**

### **Department Overview**

At Alliant Communities Preservation, we are dedicated to creating inclusive communities which provide safe, attainable, and affordable homes for individuals and families of all backgrounds. Our team has decades of combined experience creating and managing affordable multifamily communities with varied amenities for residents. We continually strive to create attainable high-quality living experiences in all the communities we create.

### **Primary Responsibilities**

- Reporting to SVP of Operations, the key responsibility of this position includes leading implementation and operationalization of asset data and information.
- This associate will oversee asset data and analytics and data governance for the organization's portfolio.
- This position will also be responsible for data governance strategies by working across departments to collect, store and maintain data and reporting.
- This position will also be responsible for managing outside vendors and external consultants.
